

ASA North East Region 2008 Masters Diving
Championships

Incorporating Yorkshire ASA Masters Championships and Northumberland and
Durham ASA Masters Championships

Dear Secretary/Coach,

We are delighted to invite entries from your club for the inaugural ASA North East Region Masters Diving Championships to be held at the Shipley Diving Pool, Bradford on Sunday September 21st 2008 between 9:00am and 3:00pm.

The conditions have been set to encourage a maximum number of masters divers to display their skills on the various boards. A Junior Masters class has been included to encourage those divers who do not move up to senior level but wish to remain in competitive diving, please note that junior divers must be at least 16 years of age on the day of competition.

Cost of entry is £4.50 per event, with entries needing to be in by Friday September 12th 2008. Entries to be sent to Gail Harrison at the address supplied on the conditions sheet.

Dive sheets are to be submitted electronically via the DiveRecorder system, (details on attached sheet), no later than Friday September 19th 2008.

Each club is to supply at least one competent judge to ensure the smooth running of the event. Coaches are allowed to judge but, please be discrete when judging.

We look forward to welcoming you to Bradford, train hard and dive well.

ASA North East Region Diving Committee.

Dive Sheets

Dive Sheets must be submitted prior to your arrival.

Close of play for dive sheets is: Friday 19th September 2008

We are using DiveRecorder, the electronic scoring system developed by Malcolm Taylor from Edinburgh. Those of you who were at ASA events this year will have seen it in action.

One advantage of Dive Recorder is that we can accept dive sheets electronically and input them directly to the scoring system. This is simple and easy to do online or off-line and you can then e-mail the file to AnnBarker@aol.com .

Step 1: Go on line, visit DiveRecorder downloads at <http://www.diverecorder.co.uk> , download the DiveSheets program and follow the instructions for installing on your PC. If you have already downloaded DiveSheets (for ASA competitions) go to Step 2.

Step 2: Staying on line, open the DiveSheets program. To download the Meet Configuration file (.mcf), Click on New Meet, double click on **nermasters.mcf** in the list to load it into DiveSheets (see on line instructions)

Step 3: complete all the dive sheets for your divers on or off-line. Enter all your divers, fill in their dive sheets in Entries, print off a report that gives details of all your divers and their dives (this is your prompt copy for the event).

Step 4: When you're happy you have all the information on divers/dive sheets entered and saved, printed your report, go back on line, click on submit in DiveSheets. Fill in all the appropriate boxes, follow the on line instructions. An e-mail is created that will send the .mcf file to Ann Barker to upload to the Scoring program. If you use AOL you might need to attach the file from the DiveSheets folder. There are instructions in DiveSheets which give details of the naming convention for the .ent file (you can view this file in Notepad or Wordpad if you need to).

If you have any problems you can e-mail AnnBarker@aol.com and

she will send the .mcf file for you to attach to DiveSheets or help with more instructions.

Close of play for dive sheets is Friday 19th September 2008, before this would be much better. We will, of course, operate a policy of allowing changes to dive sheets up to 1 hour before the start of the day's competitions.
